

What to Pack

We would like your Fordoun experience with us to be as comfortable and memorable as possible. We have put compiled a little checklist that will assist you with your packing.

We look forward to welcoming you for a memorable stay.

- Fordoun is a malaria free area.
- When visiting the area in summer, it is imperative to have a hat and sunscreen.
- Bring out the woolies in winter – but not too many because the days are glorious.
- This is a farming community so dress is casual – we, however, ask that you add smart to casual for meals.
- A light weight raincoat is suggested.
- A good pair of trainers or hiking shoes for our trails and surrounding walks.
- Costume / swimsuit for outdoor, indoor (heated pool) and floatation tank.
- Fordoun does have some mountain bikes on site; but if you prefer to bring your own bike please do.
- Fordoun offers two dams stocked with trout, we do have rods onsite for hire. Should you prefer to bring your own rods, please do.
- Camera, charger, spare memory cards, cell phone charger and binoculars.
- A sufficient supply of prescription medication – there is a pharmacy in nearby Gowrie Village in Nottingham Road
- Each room is equipped with basic amenities and hairdryers.
- Tennis racquets
